The diaper - Overview

- **ABSORPTION/DRYNESS CAPABILITIES**
 - High absorption and dryness capabilities allow the product to be used for severe cases of incontinence.
 - Less diapers are needed as the product absorbs high levels of urine
- **WETNESS INDICATOR**
 - Special wetness indicator shows when the diaper needs to be changed
- **CLOTHLIKE HOOK TAPES**
 - Allow numerous fastenings
 - Provide greater security in securing the diaper comfortably over the user
- **WATERPROOF BREATHABLE BACK PROTECTION**
- **OUTSIDE SOFT - CLOTHLIKE BACKSHEET**
- **SPECIAL ODOUR CONTROL CORE FOR MINIMIZING ODOURS**
- **ELASTIC LEG CUFFS (BARRIERS)**
 - Provide extra protection against leakage
- **COMPACT PACKING**
 - Minimizes transport cost

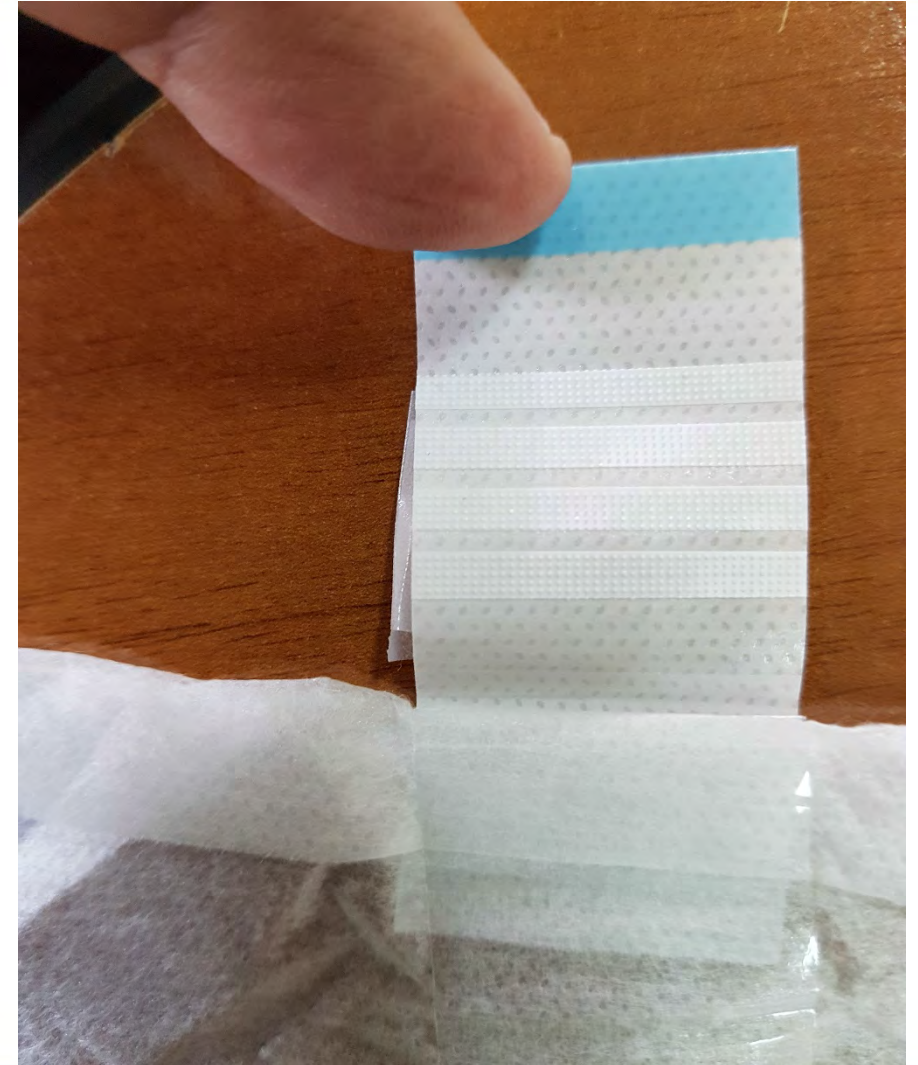

tender[®]

The diaper – Technology – Hook Tapes

Hook Tapes

- **Cloth like hook tapes for easy positioning and repositioning.**
- **It allows the free movement, without the diaper becoming loose.**

The diaper – Technology – Clothlike Backsheet

Cloth like breathable Back sheet

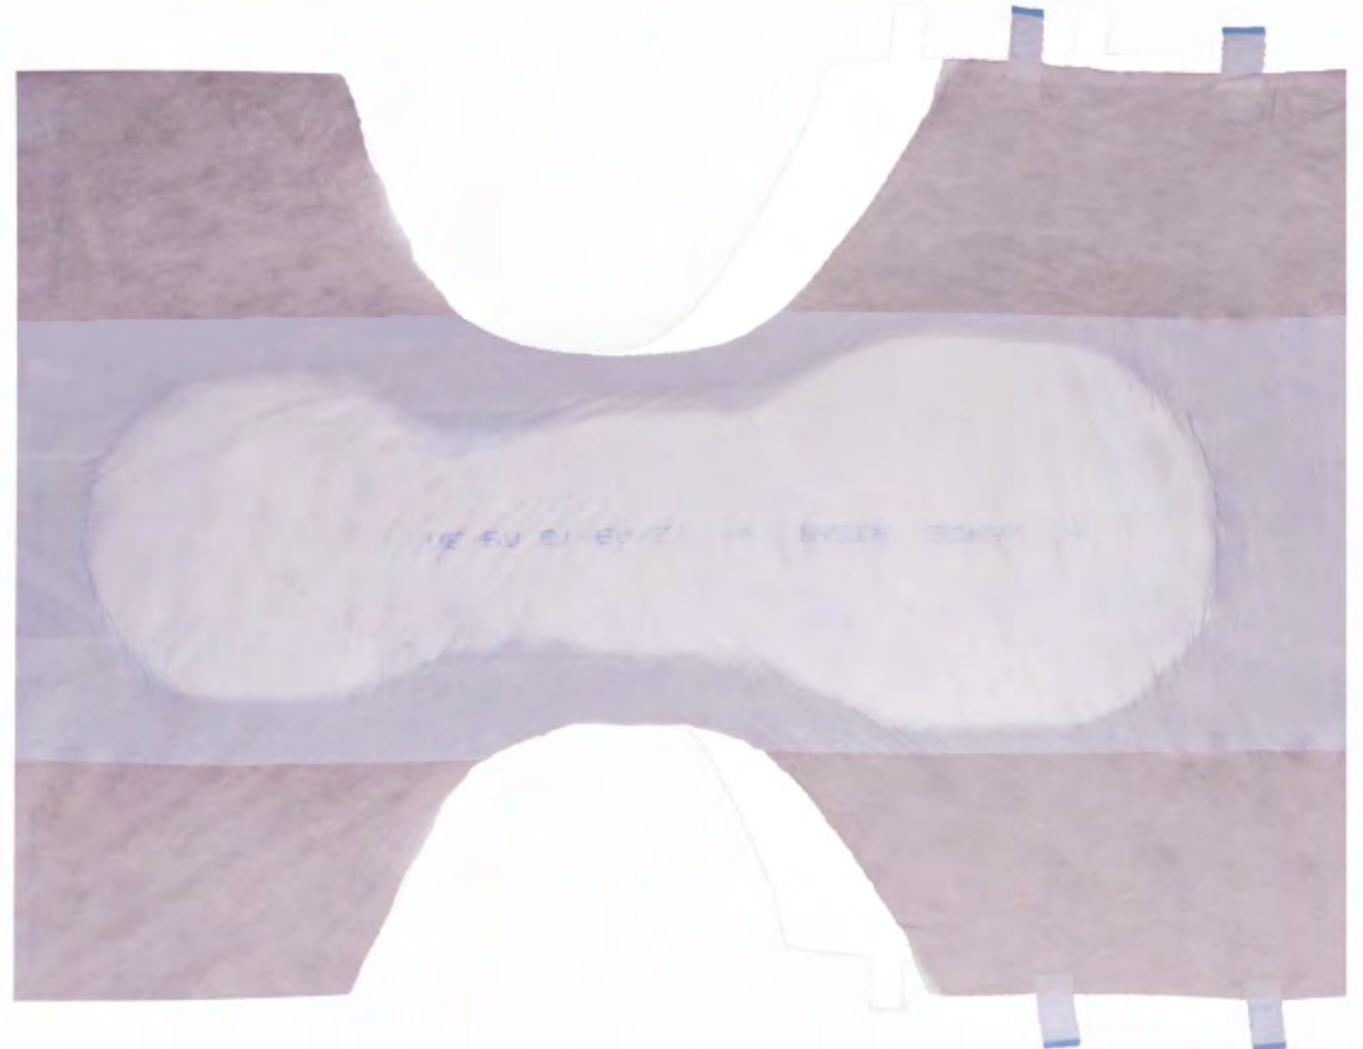

- **Soft Clothlike breathable Backsheet**

The diaper – Technology – Breathable film

Breathable film

- **Breathable P.E film**
- **Allows skin to breath, but without any leakage.**
- **Breathable film, help to prevent irritation on the sensitive skin.**

The diaper – Technology – Side Elastics

Side Elastics

- **Side Elastics closes softly around feet, preventing any leakages.**

The diaper-Technology-Vertical standing leg gathers

Vertical standing leg gathers

- **Vertical Standing Leg Gathers**, is an extra soft side burrier to further prevent leakages.

The diaper – Technology – Core

Three dimensional Core with mixed Fluff and SAP

- **Three dimensional core design, with a mixture of a virgin biodegradable Fluff pulp and a special Super Absorbent.**
- **More absorbing material is concentrated in areas, where absorption is most needed.**

Odour Control Core

- **Special USA pulp is used for controlling and minimizing odours.**
- **It neutralizes ammonia, helping in minimizing irritations on the skin.**

The diaper – Technology – Soft coverstock

Super Soft Coverstock

- The super soft coverstock, makes user feel more comfortable, and prevents liquids from coming back to the skin, thus avoiding irritations.

The diaper – Technology – Special acquisition layer

Special acquisition layer

- **Special airlaid nonwoven acquisition layer, that helps the quick absorption and distribution of liquids, thus keeping the skin dry.**
